Approximate centerpoints are
marked with a circle with crosshairs.

To determine finished size, divide the
number of squares (vertical and horizontal)
of the design by the count of your fabric.
On 11 count, 50 squares will be 4.6"; on 14
ct 3.6"; on 22 ct 2.3" and on 32 ct 1.6."

All drawings and animal identifications are my own and taken from images of "The Lady and the Unicorn" (also known as "The Five Senses," 1480-90, Southern Netherlands) in
The Unicorn Tapestries, Adolfo Salvatore Cavallo, ISBN 0-87099-868-4.
