Draw out size on fabric.

Embroider design onto fabric.

Cut lining and embroidered fabric to size.

With right sides together, stitch 1/2" from the edge all around the outside of the fabric, leaving about a 1-2" opening on the LONG side for turning. Turn and press, making sure to press the opening in and stitch closed.

With the embroidered side facing in, bring the short edges to the middle (see fold lines on pattern) and stitch 1/2 inch from the edge along each end.

(This size will fit the large Kleenex pocket pack. However, no need to include tissue packs that go into the holders. I already have those.)
